

**3mm BLEED AREA (WILL BE TRIMMED OFF)**

**3mm INNER MARGIN (NO TEXT HERE)**

## **INSTRUCTIONS**

- 1. Import this file as its own layer into Indesign, Illustrator, Photoshop or your design software of choice and set the layer opacity to 50%.**
- 2. Position your design on a seperate layer underneath.**
- 3. Ensure your design fits our template guidelines:**
  - a) No text sits in the inner margin**
  - b) Any background colors continue into the bleed area**
- 4. Make invisible or delete the template layer.**
- 5. Export your design to a pdf document.**
